Tores manager

To Whom It May Concern:

It is with the highest recommendation that I offer a review of Tore Kinch-Jensen during his time at Archival Studies, an architecture and production praxis located in Copenhagen, Denmark.

Tore worked in our office as a landscape architect during internship from May until July, 2020. It is rare for a studio to take on such an employee, who from the first day understood the type of work and ambitions that we are trying to achieve.

Tore is an innately talented, inspired, and highly thoughtful designer. He has an efficient work ethic that is the result of an intense focus on the task he has before him. His work was well done from start to finish and was always delivered on time. Tore was unafraid to take responsibility with minimal guidance in a wealth of areas (research, design, presentations), making him a good fit for our small company. He was able to work independently as well as part of the team. Tore truly helped foster a more productive and lively design environment within our practice.

Tore's contributions to our office were diverse. He began by giving the whole studio an in-depth presentation on biodiversity and a field trip through his urban garden project, bringing us into his inspiring way of thinking.

Throughout his internship, Tore worked on developing an interior planting plan for a restaurant project in Carlsberg Byen, a landscape design for a house in Tisvilde, and landscape concepts for a house in Gilleleje and a large summerhouse development in Northern Zealand. He also helped us with sourcing and physically introducing plants into a large office interior for Refshaleøens

Ejendomsselskab. He was engaged with his work such that he was able to develop new practices where needed. His expressive intelligence and clear articulation of ideas enabled the office to develop a new level of focus on landscape, biodiversity, and plants.

Tore's kindness, humor, and intensity make him an extraordinary person and designer. In general, Tore is very communicative and sensitive to the personal needs of others, which makes it easy for him to get along with almost everyone. He also happens to be a great chef, which was beneficial to the daily communal warm lunches at Archival Studies. I have no doubt that he will be an invaluable team member, and I would be happy to work with Tore in the future.

Please don't hesitate to contact me if you should need any additional information.

Best regards,

Benediktas Burdulis [Se mindre](#)

Business development and
administration at
betaFACTORY

6. juli 2020, Niels var Tores
manager

I have had the pleasure of having Tore solve a big consulting task, by doing analysis and creating a very thorough guide, enabling us to quickly make choices and get the plant solutions that suit our space and financials. Tore is extremely knowledgeable and is very good at purveying his knowledge to non-experts. Besides that, he is a joy to have around, both professionally and as a colleague.

kunde

Tore har i forbindelse med sit speciale i landskabsarkitektur udarbejdet en detaljeret haveplan for min have - både for-og baghave som er ret forskellige på mange måder. I projektet er der blandt andet lagt vægt på implementering af biodiversitet i haven, en badesø (naturpool) og en regnvandssø. Projektet gav ikke bare en masse spændende ideer, men også meget nyttig viden om (geo)forholdende i haven. Jeg er meget tilfreds med Tores arbejde, han er grundig og behagelig og jeg kan varmt anbefale ham og hans arbejde. [Se mindre](#)

ANBEFALING

Til rette vedkommende

Tore Kinch-Jensen har været i praktik som Landskabsarkitekt hos Milford P/S, i periode 1.februar 2017 – 1. juni 2017

Tore har været utrolig god til at kigge på hele problemet eller udfordringen, og derefter kommet med en grundig og veldokumenteret løsning.

Opgaverne har varieret gennem tiden, så Tore har fået et godt kendskab til træplantning så vel som regnvandshåndtering i både Danmark, Sverige og Norge.

Tore's job har bestået af følgende opgaver:

- Support til salgsteam i Danmark, Sverige og Norge
- Beregninger og design af plantehuller
- Hjælp med tekniske tegninger og skitse
- Teknisk rådgivning vedr. plantning af by-træer
- Udvikling af nye produkter til LAR markedet

Tore er yderst kvalitets- og detaljeorienteret, og han fungerer godt i et team, men arbejder også fint selvstændigt.

Tore er yderst vellidt af sine kolleger.

Jeg uddyber gerne ovenstående, og kan i den forbindelse kontaktes på tlf. 44 97 10 99 eller mobil 51 18 72 30.

Med venlig hilsen
Milford P/S

Wyatt Harding
CEO

Walgerholm 13-15 • 3500 Værløse • Danmark • Tlf. (+45) 44 97 10 99 • Fax. (+45) 44 65 10 97

Tore har arbejdet selvstændigt med en beplantningsplan for Betafactory.

Vi er meget tilfredse med hans indsats og vi har fået ny viden om planter trivsel, og driften. Samt et godt indblik i hvordan vores lokaler kan se ud, med Tore's udvalg af planter og opsætningsløsninger, via fine og realistiske renderinger.

Ud over dette drifter Tore vores udendørs arealer til fordel for forskønnelse og biodiversiteten. Blandt andet er der rigtig mange bier og sommerfugle denne sommer og det værdsætter vi meget.

Jeg vil på det varmeste anbefale Tore i et fremtidig samarbejde.
