

Tore Kinch-Jensen

Landscape architect

I am a visually adept landscape architect with extensive knowledge of biodiversity and plants

I possess skillful graphic and technical skills, enabling me to visualize intricate projects for both colleagues and clients. As a team player, I am resourceful and adept at generating effective solutions. I define success collaboratively, placing higher value on the team than on individual accomplishments.

Address

Bodilsgade 4, 2th.

1732

Copenhagen - Denmark

Education

2017-2019:

Master's degree in Landscape Architecture with a specialization in Landscape Design from the University of Copenhagen.

Thesis: [Integrating garden life and biodiversity](#)

2014-2017:

Bachelor's degree in Landscape Architecture from the University of Copenhagen.

Bachelor project:

The Future Roadside Planting

2012-2014:

KVUC (København's

Voksenuddannelsescenter)

Supplementary Courses: Mathematics, Chemistry, Physics, and English.

2005-2009:

Trained waiter and bartender

Courses:

2013: First aid course

2009: Fire safety course

Position of trust:

I assist in managing an area in Sydhavn to enhance biodiversity. The location is at Bådehavnsgade 42, where I also have an office.

Leisure interests:

As a person, I am cheerful, social, and outgoing. In my leisure time, I engage in activities related to plants, running marathons, spending time in nature, traveling, cooking, and exploring city life here in Copenhagen. I stay informed about culture, politics, media, and technology to continually develop my own professionalism.

2019 - 2020

Trifolium (BetaFactory), Copenhagen

Landscape architect (voluntary work)

Tasks:

- Preparation of a large indoor planting plan
- Drawing assignment, planting plan
- Drawing assignment, outdoor seating area

Results:

- Investigative studies
- The proposers task
- Design tasks in SketchUp

Landscape Architecture of Bangkok has changed its name to

Landscape Collaboration after I left them.

www.landscapecollaboration.com

Results:

- Personal and professional development

Reference:

- CEO Touchapon Suntrajarn (Josh)

2017 January - June

Milford, Copenhagen

Landscape architect, internship and bachelor project

Tasks:

- Support for the sales team in Denmark, Sweden, and Norway
- Calculation and design of plant holes
- Assistance with technical drawings and sketches
- Technical advice regarding urban tree planting and stormwater management
- Development of new products for the LAR (Local Management of Stormwater) market

Results:

- Design proposal for Bülowsvej in Frederiksberg. The project was completed by Frederiksberg Municipality in the fall of 2019, with my bachelor's project serving as the primary source.

Reference:

- CEO Wyatt Harding (Milford)
- Supervisor at the University of Copenhagen: Marina Jensen

Before I made the decision to change my profession to landscape architecture, I worked as a trained waiter, bartender and butler at various good restaurants in Copenhagen.
